

Woodstock SA launches

In the spirit of the infamous Woodstock Festival that took place in New York in 1969, South Africa will experience Woodstock SA, set to take place at the Hartebeespoort Dam in Johannesburg from the 1-4 of September 2016.

Dancefloors and events

Woodstock SA consists of seven dance floors, with DJs performing various genres of music per floor to cater for a range of music interests. The festival will also include several day events, such as Nick Dewit doing an X Fighters motocross show, carnival rides including a Ferris wheel and more.
