

Eduvos offers students the chance to secure their future through pre-enrol 2025

Issued by [Eduvos](#)

30 Apr 2024

Eduvos is excited to once again offer prospective students the chance to secure their seat at Eduvos with their pre-enrol option.

As South Africa's best voted private higher education institution, Eduvos understands the pressure associated with matric learners' final year of school and wants to alleviate some of this stress. The pre-enrol option offers prospective students the option of enrolling for 2025 and have peace of mind that their seat at Eduvos is reserved.

Eduvos has also eliminated other barriers that hinder people from investing in their future, like entrance tests and in-person application. The institution does not require the NBT test. Prospective students can simply enrol online and then complete their application once they receive their final matric marks in 2025.

As Africa moves into the Fourth Industrial Revolution, it is important for the continent's youth – who make up over 40% of the population – to be educated and equipped with the skills to help the continent prosper.

Eduvos is a proudly African institution, committed to making quality, affordable education accessible to as many people as possible. The institution strives to unlocking each of its students' potential with the goal of unlocking Africa's potential.

Over the last three years, Eduvos has surpassed many of its public university counterparts in first year enrolment numbers, allowing more students to access higher education and reach their career goals.

Through [funding partnerships](#) with institutions like [Capitec Education Finance](#) and [Manati](#), and [external bursaries](#) through Vela Trust, Eduvos offers comprehensive support for students to secure funding, ensuring that financial constraints don't stand between them and their future.

Those who wish to pre-enrol with Eduvos for 2025 can choose from over [20 accredited qualifications, internationally recognised](#), across four faculties, [Applied Science](#), [Commerce & Law](#), [Humanities](#), and [Information Technology](#). Those who might not achieve the results they aimed for in matric can stay on their path to success, through Eduvos's [access and pre-degree foundation programmes](#) to [higher certificate qualifications](#).
