

Celebrate World Radio Day

Today, the 13th February, is a date proclaimed by United Nations Educational, Scientific and Cultural Organisation (UNESCO), as an occasion to draw attention to the unique value of radio, which remains the medium to reach the widest audience and is currently taking up new technological forms and devices. Join the world in celebrating radio broadcast, improve international cooperation among radio broadcasters and encourage decision-makers to create and provide access to information through radio, including community radios. For more, go to www.worldradioday.org.
