

R2K to launch #LoveYourCommunityMedia campaign on World Radio Day

In celebration of World Radio Day on 13 February, R2K will launch its #LoveYourCommunityMedia campaign. The campaign is aimed at building and strengthening community media.

The campaign will include a call for an annual grant to community media organisations to provide quality and independent journalism, and a platform for ordinary citizens to become community media activists at a local level.

The campaign also encompasses a poster and pamphlet championing community media activism and a mobile petition for the public to support the call for better funding for their community media stations.
