14 Jan 2015

Nigerian video-on-demand (VoD) company, iROKOtv, and Tigo Rwanda have partnered to provide free video entertainment to the operator's 4G/LTE subscribers.

Through the partnership, Tigo subscribers will be provided with one month of free access to the iROKOtv library, which contains over 4,000 movies and TV series from around the world.

Tigo Rwanda launched its 4G internet service at the end of last year, and said it had partnered iROKOtv to add value to its high speed offering.

"We are extremely delighted to offer our customers more with our 4G LTE," said Chantal Umutoni Kagame, Tigo Rwanda head of corporate affairs, sales and distribution.

"Such high speed online access means that Rwandans at home and in businesses can get so much more from the internet, and can thus enjoy an extensive catalogue of entertainment from all over the world."
