

Graffiti showered with Watershed

What better way to start the summer than with a concert with one of South Africa's best live acts, Watershed. Graffiti and their clients were treated to an evening of excellent music as Watershed played many of their classic tunes, but also gave them an excellent taste of their latest album Mosaic.

Graffiti's offices provided the backdrop for this social event and clients really got a treat right from the start. With parking being arranged for them, Graffiti's clients were shuttled in the latest vehicles to hit the roads of South Africa, the new London Cabs. From there food and beverage flowed as all were able to relax and really enjoy the smooth ballads from Watershed.
