

Senior Front-end Developer

Remuneration:	basic salary
Location:	Sandton
Remote work:	Only remote work
Education level:	Diploma
Job level:	Senior
Type:	Permanent
Reference:	#NF58497
Company:	E-Merge IT Recruitment

New work in at a top Fintech with core focus in data science and a global portfolio to play with. The current need is for a senior React developer with a strong foundation in TypeScript and a knack for turning complex technical challenges into well-designed solutions! You will join their SA team and aid the migration of a core business product.

As a senior React developer, you'll play a key role in a fully integrated, multitenant web application, operating in six continents globally. Your expertise will be crucial in understand business needs and created the tools to manage them; while implementing cutting edge development practices utilising tech such as Tailwind, HTML/CSS, Remix. Run, Redis, C#, .NET Core, and AWS to enhance and optimize the product's user experience. While your focus is on front-end, knowledge is C# and .NET Core for back-end development will aid your delivery.

This is what you need to land the job:

- You have eight + years' experience in software development; with strong experience with React and Typescript.
- Proficiency in using Tailwind, HTML, and CSS for modern UI development.
- Familiarity with Remix. Run, Redis, C#, .NET Core, and AWS.
- By nature, you are proactive and drive results; you work well in a collaborative team
- Excellent problem-solving skills and a can-do attitude.
- Experience in running R&D sessions and conducting thorough technical research.
- Effective communication skills to liaise with business stakeholders and translate complex technical concepts.
- You have a BSc degree in IT or engineering with a natural flare towards mathematics and science.
